

Memorandum

Date: 17 May 2018 File ref:

To: **City Strategy Committee**

From: **Penny Langley, Democracy Services Manager**

Cc: **Anusha Guler, Head of Governance**

Subject: **Update to submissions - Representation Review for the 2019 and 2022
Wellington City Council elections**

Following the close of the submission period, submitters were contacted to confirm if they wished to speak to their submissions on this matter. As part of this process, some additional information has come to light.

Submission 42 - Carolyn Mills

Carolyn was not able to make it to the hearing today but requested that the following addition be made to her submission:

“The artificial requirement that various electoral wards in Wellington should be approximately the same size, is just an outdated and unhealthy construct. The number of residents in a given area has nothing at all to do with those residents having unique concerns based on their geographical proximity, which deserve full democratic representation.”

Submission 36 – Bob Turwhenua

This submission shows as having been made by Kylie Cox (as does submission 32). In fact, submission 36 was made by Bob Turuwhenua. Kylie assisted Bob with the typing of his submission.

Submission 7 - Mike Brown

Mike no longer wishes to speak to his submission.
