 Both

Submission

The specific provisions of proposed District Plan Change 83 that my submission relates to are as follows (give details below)

Comments

All provisions

My submission is that ... (You should include whether you support or oppose the specific provisions or wish to have them amended. You should also state the reasons for your views)

Comments

I oppose the expansion of the Kiwi Point Quarry for a number of reasons including: 1. Dust and airborne particulates. They create a clear health risk to the community. This are already an issue, and expanding the quarry will increase this greatly. 2. Poorly conceived land use. Essentially the idea of expanding the quarry is picking the easiest possible option, not the best. If quarrying of this type is needed in Wellington, a longer-term solution should be found that has less impact on the community. 3. The negative visual impact of the quarry is significant already. This is an issue for both residents and those wanting to promote Wellington as a tourist destination. 4. Instability of the slopes surrounding the quarry. Slips have been an increasing problem in Wellington. Keeping the quarry's current border slopes stable is a major task. Expanding the quarry will exponential increase the impact and risk in the area.

I seek the following decision from Council (please give precise details)

Comments

The decision I am after is for the Council to not expand the the Kiwi Point Quarry any further.
