Details of Submission:

The specific provisions of proposed District Plan Change 83 that my submission relates to are as follows (Give details below - please continue on separate sheet(s) if necessary)

My submission is that...

(You should include whether you support or oppose the specific provisions or wish to have them amended. You should also state the reasons for your views. Please continue on separate sheet(s) if necessary.)

I strongly oppose the specific provisions.
My reasons are that further quarrying is harmful to the environment. I live in a house overlooking the quarry and it spoils the look of the area with ugly hill gauging. There is pollution - thick smoke and, my biggest concern is that the mining is destabilising the surrounding area. On at least 2 occasions I have thought we had an earthquake as there was a rumbling sound + a jolting of my house. Nothing on Geonet but I think explosives are being used, + it is affecting neighbouring houses.

I seek the following decision from Council (please give precise details.)

I want quarrying, at least further quarrying halted. I object to the fact it is encroaching further onto non-industrial areas, and am convinced it is destabilising nearby land, which is not good at the best of times, but particularly in an earthquake prone city. Not enough research has been done on the effects of the quarrying + therefore I strongly urge the council to stop plundering the hillside - surely sites beyond urban areas can be found. → PTC

It seems ironical that our hillsides are being eroded
for projects such as cycleways that are created to supposedly
be environmentally friendly.
