Local Centre Zone

LCZ	Local Centre Zone
------------	--------------------------

P1 Sch1 **Introduction**

The purpose of the Local Centre Zone is to provide for a range commercial, community, recreation and residential activities. These centres service the needs of the surrounding residential catchment and neighbouring suburbs. Local centres support the role and function of other Centre Zones in the hierarchy of centres.

The Local Centre Zone is distributed across the city and will play a crucial role in accommodating and servicing the needs of the existing and forecast population growth. The [Medium Density and High Density Residential Zone](#) surrounds most local centres. These zones enable intensification due to the capacity of the area to absorb more housing with enablers of growth such as walkability, access to public transport, community facilities and services.

High quality building design is a focus for the Local Centres Zone. The transition to more intensive use in some local centres will result in changes to existing amenity values in the centres and their surrounds. Consequently, redevelopment will be supported by a range of measures to promote good design and environmental outcomes, and address amenity issues. Accordingly, most building activities will require a resource consent and an assessment against the Centres and Mixed Use Design Guide. To enable intensification around existing neighbourhood centres, some of these will have substantial building heights.

There is an identified need for residential intensification within and around local centres. These centres are subject to the intensification policies 3 (c) and (d) of the National Policy Statement on Urban Development 2020 (NPS-UD). Accordingly, residential activity is permitted above ground floor within these centres. To support a mix of activities within the zone, activities that have off-site effects, such as industrial activities and different retail formats, will need to be managed. There is however a desire for larger scale retail to locate in centres, where these are of an appropriate form and scale, rather than at out-of-centre locations, to support the vitality and viability of centres.

Other relevant District Plan provisions

There may be a number of provisions that apply to an activity, building, structure or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach chapter.

Objectives

ISPP

LCZ-01	Purpose
---------------	----------------

		The Local Centre Zone meets the needs of communities, businesses and residents in the surrounding residential catchment and neighbouring suburbs in a manner that supports the City's compact urban growth objectives and its role and function in the City's hierarchy of centres.
ISPP	LCZ-O2	Accommodating growth The Local Centre Zone has an important role in accommodating growth and has sufficient serviced, resilient development capacity <u>and additional infrastructure</u> to meet residential and commercial growth needs.
ISPP	LCZ-O3	Amenity and design Medium <u>to high</u> density mixed-use development is achieved that <u>positively</u> contributes to creating a high quality, well-functioning urban environment that reflects the changing urban form and amenity values of the Local Centres and their surrounding residential areas.
P1 Sch1	LCZ-O4	Activities Activities will be of an appropriate scale and type to enhance the vibrancy <u>and viability</u> of Local Centres, <u>support walkable neighbourhoods</u> and support their local purpose.
Policies		
ISPP	LCZ-P1	Accommodating growth Provide for the use and development of the Local Centre Zone to meet the City's needs for housing, business activities and community facilities, including: <ol style="list-style-type: none"> 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the <u>viability and</u> vibrancy of the Metropolitan Centre Zone and the primacy of the City Centre Zone; 2. <u>A mix of Forms of</u> medium <u>to high</u> density housing; 3. Convenient access to active, public transport and rapid transit options; 4. Efficient, well integrated and strategic use of available development sites; and 5. Convenient access to a range of open spaces.
P1 Sch1	LCZ-P2	Enabled activities Enable a range of activities that contribute positively to the role and function of the Zone and meet the needs of the residential catchment and surrounding suburbs including: <ol style="list-style-type: none"> 1. Commercial activities; 2. Residential activities; 3. Community facilities; 4. Educational facilities;

		<p>5. Arts, culture, and entertainment activities; 6. Emergency service facilities; 7. Community corrections activities; 8. Visitor accommodation; 9. Recreational activities facilities; 10. Public transport activities; and 11. Industrial activities.</p>
P1 Sch1	LCZ-P3	<p>Managed activities</p> <p>Manage the location and scale of commercial activities which could result in cumulative adverse effects on the viability and vibrancy of centres, the retention and establishment of a mix of activities within the Local Centre Zone, and the function of the transport network.</p>
P1 Sch1	LCZ-P4	<p>Potentially incompatible activities</p> <p>Only allow activities that are potentially incompatible with the role and function of the Local Centre Zone, where they will not have an adverse effect on the vibrancy and amenity of the centre:</p> <ol style="list-style-type: none"> 1. Carparking visible at street edge along an active frontage or non-residential activity frontage; 2. Demolition of buildings that results in the creation of unutilised vacant land; 3. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 4. Yard-based retail activities.
P1 Sch1	LCZ-P5	<p>Heavy industrial activities</p> <p>Avoid heavy industrial activities from locating in the Local Centre Zone.</p>
ISPP	LCZ-P6	<p>Housing choice</p> <p>Enable medium density residential development that:</p> <ol style="list-style-type: none"> 1. Contributes towards accommodating anticipated growth in the City; and 2. Offers-Contributes to a range of housing price, type, size and tenure that is accessible to people of all ages, lifestyles, cultures, impairments and abilities.
ISPP	LCZ-P7	<p>Quality development design outcomes –neighbourhood and townscape outcome</p> <p>Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity of the Local Centre Zone by:</p> <ol style="list-style-type: none"> 1. Fulfilling the intent of the Centres and Mixed Use Design Guide; 2. 4. Recognising the benefits of well-designed, comprehensive development, including the extent to which the development: <ol style="list-style-type: none"> a. Acts as a positive catalyst for future change by reflectingReflects the nature and scale of the development proposedenabled within

	<p>the zone and in the vicinity and responds to the evolving, more intensive identity of the neighbourhood;</p> <p>b. Enhances the quality of the streetscape and public / private interface;</p> <p>d. Integrates with existing and planned active and public transport movement networks, including planned rapid transit stops; and</p> <p>e. Allows sufficient flexibility for ground floor space to be converted for a range of activities, including residential; ;</p> <p>f. <u>Positively contributes to the sense of place and distinctive form of the Local Centre where the site or proposal will be prominent.</u></p> <p>4. <u>Recognising the benefits of well-designed accessible, resilient and sustainable development, including the extent to which the development:</u></p> <ul style="list-style-type: none"> a. <u>Enables universal accessibility within buildings, ease of access for people of all ages and mobility/disability; and</u> b. <u>Incorporates a level of building performance that leads to reduced carbon emissions and increased climate change and earthquake resilience; and</u> c. <u>Incorporates construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs.</u>
<p>ISPP</p>	<p>LCZ-P8 On-site residential amenity</p> <p>Achieve a good standard of amenity for residential activities in the Local Centre Zone by:</p> <ol style="list-style-type: none"> 1. Providing residents with access to adequate outlook; and 2. Ensuring <u>convenient</u> access to convenient outdoor space, including private and/or shared communal areas <u>of outdoor space;</u> 3. <u>Fulfilling the intent of the Centres and Mixed Use Design Guide; and</u>

	<p style="text-align: center;"><u>4. Providing residents with adequate internal living space.</u></p>
<p>ISPP</p>	<p>LCZ-P9 Managing adverse effects</p> <p>Recognise the evolving, higher density development context enabled in the Local Centres Zone, while managing any associated adverse effects including:</p> <ol style="list-style-type: none"> 1. Shading, privacy, bulk and dominance effects on adjacent sites; and 2. The impact of construction on the transport network <u>and pedestrian linkages.</u>
<p>ISPP</p>	<p>LCZ-P10 City outcomes-contribution <u>Development Outcomes</u></p> <p>Require over height, large-scale residential, non-residential and comprehensive development in the Local Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either:</p> <p><u>Recognise the positive outcomes that developments over the height limits in the Local Centre Zone can make to a well-functioning urban environment, as compensation for adverse effects, through the provision of enduring outcomes that provide public benefit and positively contribute to the sense of place and distinctive form, quality and amenity of the Local Centre, including:</u></p> <ol style="list-style-type: none"> 1. Positively contributing to public space provision and the amenity of the site and surrounding area, <u>particularly in areas of deficit public space;</u> and/or 2. <u>Positively contributing to public accessibility and connections;</u> 3. <u>Restoring and reusing heritage buildings and structures;</u> 4. <u>Recognising or responding to adjacent sites and area of heritage or sites and areas of significance to Māori; and</u> 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4. 5. Incorporating assisted housing into the development; where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years.; and/or 5. Enabling ease of access for people of all ages and mobility.
	<p><u>LCZ-P11</u> <u>Retirement villages</u></p> <p><u>Provide for retirement villages where it can be demonstrated that the development:</u></p> <ol style="list-style-type: none"> 1. <u>Fulfils the intent of the Centres and Mixed Use Design Guide;</u> 2. <u>Includes outdoor space that is sufficient to cater for the needs of the village;</u> 3. <u>Provides an adequate and appropriately located area on site for the management, storage and collection of all of the solid waste, recycling and organic waste potentially generated by the development;</u> 4. <u>Is able to be adequately serviced by three waters infrastructure or can address any constraints on the site; and</u> 5. <u>Is of an intensity, scale and design that is consistent with the amenity values anticipated in the Zone.</u>
