Waterfront Zone

WFZ	Waterfront Zone
-----	-----------------

P1 Sch1

Introduction

The Waterfront Zone provides an interface between the city centre and Te Whanganui a Tara. It contains one of the city’s primary promenades along with two major parks: Frank Kitts Park and Waitangi Park. It caters to a variety of cultural, recreation and entertainment activities and includes buildings such as Te Papa, Te Wharewaka o Pōneke and the Events Centre along with residential apartment living.

The land now covered by the Waterfront Zone was created through reclamation, structures and encroachments into the harbour that are seaward of the original natural shoreline from the late 1800s to 1970. Its original purpose was to facilitate travel, trade, and general industry and commerce. The Zone has a number of remaining heritage buildings and other structures from this era that influence its character today.

Development since the 1980s on the land covered by the Waterfront Zone has transformed the area into a space for recreation, events, arts and culture, business, residences, and active transport including walking and cycling. This evolution of the waterfront is in line with the vision of the Wellington Waterfront Framework (2001), which is still relevant and important today:

Wellington’s Waterfront is a special place that welcomes all people to live, work and play in the beautiful and inspiring spaces and architecture that connects our city to the sea and protect our heritage for future generations.

The Council uses the Wellington Waterfront Framework to help manage the waterfront in its role as property owner and manager of the land and public assets. The Framework has also helped inform the Waterfront Zone content in this District Plan.

Mana whenua, particularly Te Āti Awa, have an important connection with Te Whanganui a Tara and the Whairepo Lagoon. Both Taranaki Whānui and Ngāti Toa’s Claims Settlement Acts identify the Wellington Harbour as a statutory area. Wellington City Council must have regard to these statutory acknowledgments. The Natural Resources Plan for the Wellington Region (Schedule C4 Map 6) identifies a coastal site adjoining the Waterfront Zone with significant mana whenua values linked to the historic Te Aro Pā. The Waterfront Zone recognises the landward side of this site as also having particular significance to mana whenua, anchored by Te Wharewaka o Pōneke, through a method enabling greater mana whenua involvement in resource consents and plan changes affecting this area.

Management of the Waterfront area needs to be integrated across mean high water springs and actively engage mana whenua and other agencies with management responsibilities.

When constructing new and redeveloped buildings and public spaces, the Waterfront Zone requires public involvement and weighs the public interest very highly as the Zone is predominantly a public area. Applications for significant new development in the Waterfront Zone are publicly notified, [as specified in the relevant rules’ notification status](#).

Eventually, the Waterfront Zone is anticipated to be extended further north to the ramp that connects to the Fran Wilde Walkway (the walkway to the Wellington Regional Stadium). This extension would replace the Inner Harbour Port Precinct. This is currently CentrePort land that was previously partly redeveloped into office buildings and is currently zoned Port Zone. Any Zone extension will be done through a plan change. The plan change process would include a companion master plan to guide the comprehensive redevelopment.

Activities that cross the mean high water springs boundary will be managed by having regard to the Proposed Natural Resources Plan for the Wellington Region and in conjunction with the Greater Wellington Regional Council.

The Waterfront has three areas where specific controls apply. These areas of specific controls are identified in the Planning Maps. They are:

1. Areas of change. These are areas identified for redevelopment into buildings and/or public spaces.
2. Public open spaces. These are public spaces specifically mapped within the Waterfront Zone to be retained for public activities with minimal buildings.
3. Queens Wharf buildings. These areas have specific height standards and external alternation and addition rules.

These three specific controls are mentioned in some Waterfront Zone objectives and policies, and are labelled to the left of the relevant rules for building and structure activities. The label “Entire Zone” to the left of a rule or standard means the rule or standard applies to areas both with and without specific controls, unless otherwise specified.

Other relevant District Plan provisions

There may be a number of provisions that apply to an activity, building, structure or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach chapter.

Objectives

ISPP

WFZ-01

Purpose

Activities and development in the Waterfront Zone contribute to Wellington’s identity and sense of place, with public spaces, buildings and other structures that reflect the unique ~~and special components and elements that make up location and~~ character of the waterfront.

ISPP

WFZ-02

Ahi Kā

Taranaki Whānui and Ngāti Toa Rangatira are acknowledged as the mana whenua of Te Whanganui ā Tara (Wellington) and their cultural associations and landowner and development interests are recognised in planning and developing the Waterfront Zone.

ISPP

WFZ-03

Protection of public open spaces

The Waterfront’s public open spaces mapped as specific controls are protected and maintained for temporary activities and recreation activity.

ISPP

WFZ-04

Areas of change

Areas of change are redeveloped over time into high-quality public spaces and

		buildings.
P1 Sch1	WFZ-05	<p>Active transport and micro-mobility connectivity Connections to Te Whanganui a Tara, public transport and the City Centre</p> <p>Active transport and micro-mobility connectivity within the Waterfront Zone, and between the edge of Te Whanganui a Tara, public transport and the City Centre are, is maintained or enhanced.</p>
P1 Sch1	WFZ-06	<p>Vibrant and diverse mix of activities</p> <p>The Waterfront Zone has a diverse and vibrant mix of activities that collectively provide and encourage public interest, use and enjoyment of the Zone during the day and night.</p>
ISPP	WFZ-07	<p>Managing adverse effects</p> <p>Adverse effects of activities and development in the Waterfront Zone are managed effectively both:</p> <ol style="list-style-type: none"> 1. Within the zone, including on its role, and function and connectivity; and 2. At interfaces with: <ol style="list-style-type: none"> a. Heritage buildings, heritage structures and heritage areas; b. Active building frontages and publicly-accessible areas on the ground floors of buildings, except for storage and/or service areas;

		<ol style="list-style-type: none"> 5. Storage and/or service areas screened from public view; 6. Sustainable, resilient building design that is adaptable to changes in use over time; 7. Buildings that respond to any identified significant natural hazard risks and climate change effects, including the strengthening and adaptive reuse of existing buildings; and 8. Design that responds positively to identified historic heritage structures, buildings and areas, including those seaward of mean high water springs and identified in the Regional Natural Resources Plan, that are adjacent to the new or altered building.
ISPP	WFZ-P7	<p>Protection of public open space</p> <p>Protect the Waterfront Zone’s mapped public open spaces by avoiding new permanent buildings above-ground on public open space except where they improve the space for public use and enjoyment and do not dominate or cumulatively diminish the public open space.</p>
ISPP	WFZ-P8	<p>Areas of change</p> <p>Enable re-development of Areas of Change from car parking to high quality buildings and/or public spaces.</p>
ISPP	WFZ-P9	<p>Sustainable long term use</p> <p>Encourage new development and redevelopment in the Waterfront Zone to be sustainable, resilient and adaptable to change in use over time, including enabling sufficient flexibility for ground floor space to be used and converted for a range of activities and responding to future coastal hazards.</p>
P1 Sch1	WFZ-P10	<p>Ahi kā</p> <p>Recognise and provide for the cultural associations and development interests of Ngāti Toa Rangatira and Taranaki Whānui ki te Upoko o te Ika in the Waterfront Zone by:</p> <ol style="list-style-type: none"> 1. Managing new development adjoining sites and areas of significance to Māori; and 2. Collaborating on the design and incorporation of Māori cultural elements into public open space within the zone.
Methods		
P1 Sch1	WFZ-M1	<p>Mana whenua involvement in managing the Waterfront Zone</p> <p>For all resource consent applications and private plan change requests in the Waterfront Zone from Te Papa to Frank Kitts Park inclusive, and elsewhere in the Waterfront Zone that affect Te Whanganui a Tara, Wellington City Council will:</p> <ol style="list-style-type: none"> 1. Require the applicant to include a record of engagement with Te Aro Pā Trust and Te Rūnanga o Toa Rangatira with the application for resource consent or request for private plan change; and 2. If a public hearing is required, enable Te Aro Pā Trust and Te Rūnanga o Toa Rangatira to select up to half of the hearing commissioners on the panel to hear submissions and make recommendations or delegated decisions, provided these commissioners are certified by the Ministry for the Environment for this purpose.

P1 Sch1	WFZ-M2	<p>Integrated management across mean high water springs</p> <p>Wellington City Council will work with mana whenua, Wellington Regional Council, and other agencies with management responsibilities, on the integrated management of resource management matters across mean high water springs, in particular:</p> <ol style="list-style-type: none"> 1. Activities and development on structures in the coastal marine area that are connected to land; 2. Activities and development, and their effects, that cross the mean high water springs boundary; 3. Communication and information sharing; 4. Improved biodiversity values; and 5. Improved public access to the coast.
