Date: 16 June 2024

## Wellington Proposed District Plan Stream 9 Infrastructure and Transport

### Additional items from Living Streets Aotearoa

These are additional matters that there was not time to discuss fully at the hearing.

In response to the s42A amendments report of 13 May 2022 Living Streets Aotearoa seeks the following relief:

#### INF S12 Design of Streets

Please remove reference to 1 metre pedestrian paths – these are too narrow for all pedestrians. Either make the minimum width 1.8 metres or include a pedestrian way on the driveway. Providing a different surface material is one way to permit and distinguish a pedestrian path from the vehicle path.

Local Street M4 with 3000 annual average vehicles per day

Please remove the reference to Cuba Mall from the list, it has its own legislation as a pedestrian-only area.

Please include limited public notification of near neighbours for TR3 and TR4 driveways. Neighbours often have the solution to pedestrian and vehicle access on narrow or below-standard accessways.

#### INF Street Tree Species Table 3

Please include more native species in this list as follows:

#### NATIVE TREES AND SHRUBS

Subject to advice from:

1. people experienced in planting in urban areas, the following native trees and shrubs may be suitable for planting on the edges of footpaths, plazas, malls, median strips, berms, CBD-area "mini-parks" and near apartment blocks;
2. People with detailed knowledge of the underground infrastructure in the area of the proposed planting

#### BOTANICAL NAME

#### MĀORI NAME

#### COMMON NAME

## Transport

### Definitions

Please amend the definition of pedestrian as follows:

**Pedestrian** means a person on-foot ~~walking rather than travelling in a vehicle~~, including a person with impaired mobility who relies on mobility assistance including a wheelchair.

### TR S3 1d Pedestrian and cycle conflict

Please amend as follows

Cycling and [Micromobility](#) parking facilities must be located:

- i. So they are easily accessible for users, within 20m of the primary entrance;
- ii. So they do not impede [pedestrian footpaths and](#) thoroughfares including areas used by people whose mobility or vision is restricted;
- iii. To be clear of [vehicle](#) parking or manoeuvring areas; and
