Grant Birkinshaw	52.2	Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that the District Plan Review is overly complex, and becomes less a document for the public's use, and more one requiring professional (and expensive) advice to use. The District Plan Review is a discouragement of public participation in what should be a democratic instrument. The evolution of District Plans has deteriorated to this extent and requires a fresh approach.	Opposes the District Plan Review in its entirety.	Reject.		No.
Grant Birkinshaw	52.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the District Plan review, as notified, should be reassessed to become a more user friendly public document. Airbnb	126.4	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that home sharers must also be good neighbours and take the issues of managing wrongdoers seriously. [Refer to original submission for full reasons].	[Inferred decision requested]. Seeks that a standardised approach is utilised to assess impacts on amenity values from visitor accommodation activities.	Accept.		No.

Precinct Properties New Zealand Limited	139.1	Whole PDP / Whole PDP / Whole PDP	Support	Generally supports the aims of the PDP. Not specified.			Accept.		No.
Precinct Properties New Zealand Limited	139.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that it is not appropriate that the Council's discretion is restricted to all matters in the Design Guide. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications. Rather than being formally incorporated into the District Plan, the design guides should be reference documents that sit outside the District Plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance.	Seeks that all direct references to the design guides in the Proposed District Plan provisions are deleted and replaced with references to the specific design outcomes that are being sought. [Refer to original submission for further reason]	Seeks that the entire PDP is rewritten so that it's clear and intelligible to the average person.			Reject.		No.
Robert Murray	213.3	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the PDP provides rules rather than guidelines that comply with and support Councils principles.			Reject.		No.

Stride Investment Management Limited	FS107.35	General / Whole PDP / Whole PDP / Whole PDP	Support	Stride supports these submission points for the reasons provided by the primary submitter. TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from not demolishing older native timber buildings which have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.	Disallow	Reject.		No.
Ministry of Education	400.2	Whole PDP / Whole PDP / Whole PDP	Amend	Seeks that explicit provision is given to educational facilities throughout the urban environment to enable the submitter to manage the impacts of growth and development on educational facilities, in particular impacts on school capacity. Fabric Property Limited	425.2	Whole PDP / Whole PDP / Whole PDP	Support	Supports the aims of the Proposed District Plan. In particular submitter supports the following features and objectives of the plan: (a) the creation of well-functioning urban environments (consistent with the direction set out in the National Policy Statement on Urban Development 2020 (NPSUD)); (b) the provision of sufficient development capacity to meet long term demands for housing and business land; (c) the provision of a compact urban form and urban intensification; and (d) the hierarchy of centres, and the recognition of the City Centre as the primary centre serving the wider Wellington region.	Not specified.	Accept.		No.
Paul M Blaschke	435.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Design Guides could have little effect on development in the City due to the fact much of the intensification building that will take place will not be subject to resource consents under the RMA. The use of the relevant PDP and other guidelines should be promoted as best practice and where possible incentivised through relevant policy provisions in the PDP. Such provisions may help enable the design objectives sought in the PDP and the guidelines, through market forces. It is finally noted that MIE guidelines on the Resource Management Enabling Act also refers to Design Guide guidelines, stating "See the non-statutory national medium density design guide which encourages high quality and well-functioning design for residential developments that are permitted under the MDRS. This is for voluntary use alongside any design guidance territorial authorities use to assess development that requires resource consent."	Seeks that relevant sections of the PDP be amended to promote the use of the Subdivision and other Guidelines as best practice.	Accept.		No.
Michelle Rush	436.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that there should be more local provision for recycling and reuse including collection and sorting facilities, in line with Council's signalling of moves to a circular economy. Currently, such activities fall within the definition of heavy industry, and aren't easily provided for at local level. Local recycling facilities should be enabled at neighbourhood or local centre scale as part of supporting a circular economy.	Seeks that the plan provisionally enable the collection and processing of recycled waste at smaller scale, in more places, as a controlled activity.	Reject.		No.
Dale Mary McTavish	448.3	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes the Proposed District Plan in its current form.	Seeks that Draft District Plan be reinstated.	Reject.		No.
John Wilson	453.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the extent of the zones should be clearly defined e.g. by lines on a map. If defined by distance from the centre point, this should be defined in terms of distance from the centre point. Not in terms of time eg say five or ten minutes walk from the centre of the zone as this requires a subjective interpretation of how far and how fast a typical pedestrian could walk.	[Inferred decision requested] Seeks to clarify how zones are defined in terms of distance from the centre point compared to time in minutes walked. [Inferred decision requested]	Accept.		No.
Stride Investment Management Limited	470.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Generally supportive of the aims of the proposed plan. Ben Barrett	479.8	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that there is very little detail in the DP to prevent poor quality outcomes that meet minimum criteria in planning and consenting phase. Considers that Wellington is at a crucial juncture between needing to rapidly modernise and build more densely, but being in danger of developing over all that makes Wellington a vibrant city, a cultural centre, and a great place to live. What we do has to be of higher quality. To minimise emissions over the longterm we also need to significantly improve the quality of urban planning and building performance.	Seeks that there is greater detail in the DP to prevent poor quality outcomes that meet minimum criteria in planning and consenting phase. [Inferred decision requested]	Reject.		No.
Ben Barrett	479.9	Whole PDP / Whole PDP / Whole PDP	Not specified	Submitter considers that Wellington needs to become denser, and this can happen with carefully considered urban form that relates to the existing surrounding structures, culture and community. Submitter considers that the District Plan does not do this and needs to better encourage the quality of urban form to be highest possible. For example, if we do not consider embodied energy of urban form and building stock, we will not achieve our cities low emissions goals. To meet Climate goals and resource conservation goals, all new urban form needs to be built to last 100 year plus. If we're planning to build for 15 or 20 years, this will not meet the needs of future generations, it will burden them with much higher re-development cost and unnecessarily force more emissions into the atmosphere.	Seeks that the Proposed District Plan should better encourage the quality of urban form with density. [Inferred decision requested]	Accept in part.	n/a	No.

House Movers Section of the New Zealand Heavy Haulage Association Inc	485.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the regulatory controls in the District Plan need to properly reflect the purpose and intentions of the RMA 1991 as expressed in the decision of the Environment Court in New Zealand Heavy Haulage Association Inc v The Central Otago District Council (Environment Court, C45/2004, Thompson EJ presiding). In that decision the Environment Court held that there was no real difference in effect and amenity value terms between the in situ construction of a new dwelling and relocation of a second-hand dwelling, subject to appropriate permitted activity performance standards.	Seeks that the regulatory controls in the District Plan properly reflect the purpose and intentions of the RMA 1991 as expressed in the decision of the Environment Court in New Zealand Heavy Haulage Association Inc v The Central Otago District Council (Environment Court, C45/2004, Thompson EJ presiding). Chris Howard	192.7	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes the Proposed District Plan for the following reasons: - Considers that it ignores that there are numerous streets in greater Wellington that contain well-maintained, character, semi-heritage buildings that are predominantly single storey. - considers that the plan does not enable residential intensification that is carefully tailored to avoid destroying the widespread special character that exists across many of the city's well-established suburbs. - considers the plan risks being highly damaging to local character and the city's unique beauty and liveability. - considers the plan risks unnecessarily fragmenting neighbourhood cohesion, due to development fairness inequity - one size fits all approach to intensification across Wellington is not appropriate across our varied property sections and suburbs. [Refer to original submission for full reason]	Seeks that the Council urgently undertake an updated section-by-section, and street-by-street review of all areas in their draft spatial plan to determine what level of intensification is contextually appropriate for a given section or area.	Reject.	No.
Lower Kelburn Neighbourhood Group	FS123.11	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that zoning heights on swathes of housing is very 'destructive'. Considers high rise sites need to be carefully and individually selected according to topology with pockets of intensity if sites allow.	Allow	Reject.	No.
Gareth and Joanne Morgan	FS38.24	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Oppose those parts of Kāinga Ora's submission that seeks to amend, or remove the Character Precincts in Oriental Bay.	Disallow	Accept in part.	No.
Thorndon Residents' Association Inc	FS69.13	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The WCC summary reads: The introduction to the MRZ is generally supported, in particular the provision of medium density housing to give effect to the NPS-UD and the Act. But amendments are sought relating to the introduction of Character Precincts and different provisions related to the construction of 4 or more residential units. Instead, it is sought that a Character Overlay is introduced into District-wide matters. Special character precincts enable rigorous, targeted, sustainable urban planning regulation, and a role for community engagement in future changes. TRA specifically oppose 391.318 which seeks to delete Objective UFD-08 and rejects its recognition of "special character" at the strategic level of the Plan. The TRA supports Character precincts because they comply with the NPS-UD, and are an important qualifying matter under the RMA.	Disallow	Accept.	No.
Conor Hill	76.3	Mapping / Rezone / Rezone	Amend	Considers that significantly more land should be zoned for residential development to comply with Objective 2 of the NPS-UD. Considers that Takapu Valley was an option for Planning for Growth 2019 consultations and is therefore still a good option.	Seeks that Takapu Valley is rezoned to allow for more housing.	Reject.	No.
John Schiff	166.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that intensive development in character areas such as Mt Victoria will not offer "affordable" housing as the demand for inner city living will continue to grow and new builds will fetch high prices, shutting out those seeking affordable living. In fact, the houses that are likely to be demolished to make way for new developments are most likely providing affordable rental accommodation. These will disappear if the character zones are reduced as significantly as proposed. Considers that a more balanced approach between retaining character precincts and allowing more intensive development is required	Not specified.	Accept in part.	No.
Jonathan Markwick	490.5	Mapping / Rezone / Rezone	Amend	Considers that six storey high density residential buildings should be allowed in all of Kelburn (with a viewshaft protection from the top of the cable car) to help accommodate demand for student and staff housing close to Victoria University's Kelburn Campus. Students and staff have extremely high rents with a restricted housing supply in Kelburn.	Amend the mapping to allow six storey high density residential buildings in all of Kelburn (with a viewshaft protection from the top of the cable car).	Reject.	No.
Generation Zero	FS54.3	General / Mapping / Rezone / Rezone	Support	Support and submit: Enable 6 stories in more of Kelburn. Kelburn is the site of a major regional employment hub and currently has very low development capacity and correspondingly higher rents, house prices and lower rental quality than the rest of the city.	Allow / Seeks the adoption of 6 storey zoning across more of Kelburn.	Reject.	No.
Alan Fairless	242.11	General District wide Matters / General point on District wide Matters / General point on District wide Matters	Oppose	Considers that amendments are needed to enable more limited notification (as opposed to non-notification) in relation to light, shading, privacy and wind effects, to enable and support fair and reasonable compromises between neighbours.	Seeks that the Proposed District Plan includes greater provisions for limited notification (as opposed to non-notification) in relation to light, shading, privacy and wind effects.	Reject.	No.
The Retirement Villages Association of New Zealand Incorporated	FS126.1	Part 2 / General District wide Matters / General point on District wide Matters / General point on District wide Matters	Oppose	Relief sought in original submission is inconsistent with the RVA's primary submission and the Enabling Housing Act. New Zealand Motor Caravan Association	314.10	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that freedom camping should be a permitted activity in the zoned-based chapters on the basis that freedom camping should instead be managed through the Council's bylaw. [Option 2]	Seeks that freedom camping is a permitted activity in all zones.	Reject.	No.
New Zealand Motor Caravan Association	314.11	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that campgrounds should be a permitted activity in the zoned-based chapters, as allowing for more permissive rules around the establishment of campgrounds will make it easier to establish sites for vehicle-based camping in the Wellington District. [Option 2]	Seeks that campgrounds are a permitted activity in all zones.	Reject.	No.
Carolyn Stephens	344.8	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that the plan should be amended to encompass more new developments as controlled activities in respect of urban design. This is to ensure that quality in design at a local level can be considered for the majority of developments, and that this process is tied to community-level design guides as they are developed. [Refer to original submission for full reason]	Seeks that the plan be amended to encompass more new developments as controlled activities in respect to urban design.	Reject.	No.
Royal Forest and Bird Protection Society	345.383	Part 3 General / Part 3 General / Part 3 General	Support in part	For all zones, opposes any provisions that lessen the protection given to SNAs, OFLS, SALs, or areas of natural character in the coastal environment. We submit that all provisions in Zones still have to give effect to the requirements of the Act and national direction, including the NZCPS. Any exemptions from those requirements are opposed.	Amend all zones to remove any exemptions to requirements of national direction instruments, particularly the NZ Coastal Policy Statement.	Reject.	No.
Ministry of Education	400.92	Part 3 General / Part 3 General / Part 3 General	Amend	Submitter considers that educational facilities should be enabled as part of urban growth and development and are considered in any zoning changes made. The submitter notes that various changes are proposed to the zoning of land throughout the district. Changes in zoning have the potential to result in changes in development and in the population size and demographic of residents throughout the district, which can consequently impact on the capacity of educational facilities. The submitter acknowledges the changing nature of zoning and development within a district as part of the District Plan process.	Seeks that educational facilities are enabled as part of urban growth and development and are considered in any zoning changes made.	Accept.	No.

Guy Marriage	407.2	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that the shift in density and a residential zone level and potential for 3x3 on a single site calls for the need to have a design review, certainly if a 3x3 is proposed, and any development within the inner city as this will have a significant impact on the cities character. Without clear incentives for high quality design outcomes we simply risk creating a dumbed down mediocre city. A mandatory Design Panel Review will encourage high quality design outcomes.	Seeks the addition of a mandatory Design Review Panel for all inner-city developments. 3x3 developments in the medium density residential zone, mixed use developments and centres where developments are over 3 levels.	Reject.		No.
Paul Gregory Rutherford	424.14	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that Wellingtonians will relish the challenge of working together. Some suburbs such as Newtown are proactively taking a lead in rethinking their localities. Such initiatives create a sense of community, enhance democracy and deliver change in ways that build on community strengths. Seeks that participatory design projects, coupled with clear housing targets, so communities are involved in welcoming new people. Imposing arbitrary change when better options exist simply fosters local resentment.	Seeks that the Proposed District Plan needs to be amended to encompass more new developments as controlled activities in respect of urban design so as to ensure that quality in design at a local level can be considered for the majority of developments, and that this process is tied to community-level design guides as they are developed.	Reject.		No.
Royal Forest and Bird Protection Society	345.396	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Support in part	Opposes any provisions in all Special Purpose Zones - lessen the protection given to SNAs, OFLS, SALs, of areas of natural character in the coastal environment. We submit that all provisions in the Special Purpose Zones still have to give effect to the requirements of the Act and national direction, including the NZCPS. Any exemptions from, or lessening of, those requirements are opposed.	Amend Special Purpose Zone chapters to give effect to national direction regarding Significant Natural Areas, Outstanding Features and Landscapes, and Significant Amenity Areas in line with national direction instruments, particularly the NZ Coastal Policy Statement.	Reject.		No.

Reject.		No.
Taranaki Whānui ki te Upoko o te Ika	389.110	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	[No specific reason given beyond decision requested - refer to original submission]. Save Our Venues	445.9	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	Considers that a further solution to the issue of low acoustic insulation standards in new residential developments in the immediate vicinity of existing live music venues, could include the rezoning of existing music venues into Special Entertainment Precincts. This will allow for a higher level of sound output. Considers that these areas would allow for prioritising the cultural and economic value of these venues and protect them from land use conflict where new expectations of residential amenity can overlap with the existing features of the urban environment. Considers that these standards are already exemplified in the High Noise Area zoned for Courtenay Place, and could extend protections to the venues such as as Meow, San Fran and Valhalla which are currently located in the Central Area Zone. The Entertainment Precinct approach has been implemented successfully in Queenstown and Sydney, and with similar zoning structures to the Auckland Unitary Plan. [Refer to original submission for full reason]	Seeks that the WCC consider creating a Special Entertainment Precinct Zone to protect existing and new music venues.	Accept in part.		No.
Willis Bond and Company Limited	416.94	Commercial and mixed use Zones / Local Centre Zone / General CZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.	Accept.		No.
Conor Hill	76.1, 76.2	Mapping / Mapping General / Mapping General	Amend	Considers that Council isn't meeting their obligations under the NPS-LID.	Seeks that the mapping is amended to provide more greenfield areas and commercial land.	Reject.		No.

This rezoning is sought as considers the sites adjoin the metropolitan centres and thereby the adjoining zoning should appropriately be High Density Residential Zone. Considers this zone would also align in the outcomes sought in the overarching submission.	Seeks consequential amendments for all rules to reflect the High Density Residential Development rules.	Accept in part.		No.
Kāinga Ora Homes and Communities	391.744	Development Area / Development Area Kilbirnie Bus Bays / General DEV1	Amend	Seeks amendments to the rules to make all necessary consequential changes in response to the rezoning of those parcels which are identified for Medium Density Residential Zone to High Density Residential Zone. This rezoning is sought as considers the sites adjoin the metropolitan centres and thereby the adjoining zoning should appropriately be High Density Residential Zone. Considers this zone would also align in the outcomes sought in the overarching submission.	Seeks consequential amendments for all rules to reflect the High Density Residential Development rules.	Accept in part.		No.
