Commercial and mixed use Zones / Local Centre Zone / General LCZ	David Stephen	82.7	Oppose	Opposes Khandallah being a Local Centre Zone.	Seeks that Khandallah is rezoned Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Hugh Good	90.6	Support	Supports Khandallah being a Local Centre Zone.	Retain Khandallah as a Local Centre Zone as notified.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Ian Law	101.6	Oppose	Opposes Khandallah being a Local Centre Zone.	Seeks that Khandallah is rezoned as a Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Julie Patricia Ward	103.7	Oppose	Opposes Khandallah being a Local Centre Zone. Considers that the Khandallah Shopping Village in Ganges Road is a neighbourhood centre to which Policy 3(d) of the NPS-UD applies and therefore the PDP is required to enable 'commensurate with the level of commercial activity and community services' required.. Considers that the neighbouring suburbs of Ngaio, Broadmeadows and Kaiwharawhara are not reliant on services/commercial activities in Khandallah, which only service the needs of the immediate area (Khandallah) and therefore comes under the definition of a LCZ. Presence or absence of a supermarket is not a defining character of an LCZ. [Refer to original submission for full reasons.]	Seeks that Khandallah is rezoned NCZ (Neighbourhood Centre Zone).
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Julie Patricia Ward	103.8	Oppose	Oppose LCZ (Local Centre Zone) zoning at corner of Box Hill and Baroda Street and wants it rezoned to NCZ (Neighbourhood Centre Zone). Considers that there are two cafes and a car repair business at this location and should therefore be rezoned to NCZ.	Seeks that the LCZ (Local Centre Zone) at corner of Box Hill and Baroda Street be rezoned to NCZ (Neighbourhood Centre Zone)
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Brian McKenna	113.3	Oppose	Opposes the zoning of Khandallah Village as Local Centre Zone. Considers that this area is not significantly different in size or level of business than any other "Centre" zones in the North-western suburbs. It is significantly smaller than the Karori "Local Centre".	Amend the zoning of Khandallah Village from Local Centre Zone to Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Pam Wilson	120.7	Oppose	Opposes the zoning of Khandallah Village as Local Centre Zone.	Amend the zoning of Khandallah Village from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone).
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Janice Young	140.7	Oppose	Opposes Khandallah being zoned as a Local Centre and wants it to be zoned as a Neighbourhood Centre.	Opposes Khandallah being zoned Local Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	David Stevens	151.15	Oppose	Opposes Khandallah being a Local Centre Zone. Considers that Khandallah is essentially a small village which serves its local community. Neither Ngaio or Johnsonville rely on Khandallah for retail or business services. Access for deliveries to local businesses is already constrained in Khandallah Village limiting any scope for expansion.	Seeks that Khandallah is rezoned as a Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	David Stevens	151.16	Oppose	Opposes Crofton Downs being a Local Centre Zone.	Seeks that Crofton Downs is rezoned as a Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	David Stevens	151.17	Oppose	Considers that the area at the junction of Box Hill/Burma Road/Station Road has mistakenly been classified as a 14m LCZ.	Seeks that the area at the junction of Box Hill/Burma Road/Station Road is rezoned as a MRZ (Medium Density Residential Zone) with a height limit of 11m.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Brian Sheppard	169.2	Oppose	Considers that LCZ are defined as having easy access to rapid transit public transport and that Churton Park should not be zoned as LCZ as its meagre bus service cannot be considered rapid transit public transport.	Seeks that Churton Park is not zoned as a Local Centre Zone.

Commercial and mixed use Zones / Local Centre Zone / General LCZ	Emma Baines	185.6	Oppose	Opposes Khandallah being a Local Centre Zone. Khandallah has no more amenities than Ngaio or Crofton Downs and should not be treated differently to these other Neighbourhood Centres. The submitter travels from Khandallah to either Johnsonville or Crofton Downs to use the larger Countdown supermarkets and petrol stations.	Seeks that Khandallah is rezoned as a Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Emma Baines	185.7	Oppose	Opposes the Station Road area being a Local Centre Zone. Considers that making this area of one café, a garage, and a restaurant a Local Centre Zone is completely overstated and must be an error given the number of shops in Ngaio which is still considered a neighbourhood centre.	Seeks that the Station Road area is rezoned as a Neighbourhood Centre Zone. [Inferred decision requested].
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Wellington's Character Charitable Trust	233.20	Oppose	Opposes Khandallah Village being a Local Centre Zone. Considers that Khandallah is similar to Ngaio, and Ngaio has an NCZ. All the elements required of an NCZ are present in Khandallah. There is a large distinction between Khandallah and other suburbs with LCZ. [Refer to original submission for full reason]	Seeks that Khandallah Village is rezoned Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Wellington's Character Charitable Trust	233.21	Oppose	Opposes Station Road/Baroda Street satellite shops being a Local Centre Zone. Considers that LCZ is inappropriate zoning for this area. This area is consistent with the PDP's description of NCZ. [Refer to original submission for full reason]	Seeks that the Station Road/Baroda Street satellite shops are rezoned Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Onslow Residents Community Association	283.13	Oppose	Opposes the Local Centre Zone at Khandallah Centre. Considers that Khandallah Centre does not "Commensurate with the level of commercial activity and community services "required by NPS-UD Policy 3 (d).	Opposes the Local Centre Zoning in the Khandallah Centre and seeks that it is rezoned to Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Onslow Residents Community Association	283.14	Oppose	Opposes the Local Centre Zone at Box Hill Road. Considers that the zoning of LCZ here is an error in the District Plan. This extends the MRZ beyond reasonable limits. Also, there is no footpath that makes the southern end of Simla Crescent accessible in its entirety within a reasonable walking catchment of the Khandallah centre.	Opposes the Local Centre Zoning at Box Hill Road, Khandallah and seeks that it is rezoned to Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Wilma Sherwin	306.9	Oppose	Opposes Khandallah being a Local Centre Zone. Khandallah village has a small village hub with limited vehicular access and only a small number of businesses. It is not big enough to be called a Local Centre and should instead be zoned Neighbourhood Centre.	Seeks that Khandallah is rezoned Neighbourhood Centre Zone.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Ryman Healthcare Limited	346.3	Amend	Supports the Local Centre Zone at Ryman's site at 192 Adelaide Road, Newtown, provided the provisions applicable to the Local Centre Zone are amended to better enable retirement villages, as outlined in the submission from the Retirement Village Association of New Zealand. Namely, seeking a fit for purpose retirement village framework in the Local Centre Zone that recognises the unique needs of retirement villages, compared to other residential typologies. Finally, opposing restrictions on residential activities at ground floor level to the extent they would apply to retirement villages. [Refer to submission 350].	Supports the Local Centre Zone in Newtown, with amendment. [Refer to submission 350]

Commercial and mixed use Zones / Local Centre Zone / General LCZ	Z Energy Limited	361.20	Support	The LCZ is generally supported, as it provides for a range of commercial, community, recreational and residential activities. These centres service the needs of the surrounding residential catchment and neighbouring suburbs.	Retain Local Centre Zone chapter as notified.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Waka Kotahi	370.401	Amend	Considers the term "roading network" is used in several places, and the term is not defined. Particularly supports the provision for public transport, consideration of function of the transport network, the discouragement of carparking visible at street edge along an active frontage and the quality design outcomes.	Amend the reference to "transport network", to ensure that it captures all transport modes.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	WCC Environmental Reference Group	377.448	Support in part	Generally supportive with some amendments specified below.	Not specified.

Commercial and mixed use Zones / Local Centre Zone / General LCZ	Kāinga Ora Homes and Communities	391.558	Amend	Considers that notified Local Centres in Miramar, Tawa and Newtown should be classified as Town Centre zones for their role and function within Wellington City. The spatial extent of these and other Centre Zones should be expanded to support the plan-enabled residential intensification surrounding them to and support a well-functioning urban environment.	Seeks that the Miramar, Tawa and Newtown Local Centre Zones be classified as Town Centre Zones.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Kāinga Ora Homes and Communities	391.559	Support in part	Generally supports the introduction and application of a Local Centre Zone in the Draft District Plan. The Local Centre Zone description states “These centres serve the needs of the surrounding residential catchment and neighbouring suburbs”. Considers that this is inconsistent with the National Planning Standards description which limits this to the “residential catchment”. The Planning Standards description of Town Centres includes the “immediate and neighbouring suburbs”. Accordingly, Seeks that a Town Centre category is added to the Hierarchy of Centres to include Karori, Miramar, Tawa, and Newtown and the description of Local Centres is amended to better reflect the Planning Standards. Considers that is unclear why the High Density Residential Zone only applies to “most” centres so this should be amended to include all local centres to help support their core functions. At the moment the MDRS (11m) applies to Karori, Crofton Downs, Khandallah, Churton Park. 14m applies to Miramar, Hataitai, Island Bay, Brooklyn, and Newlands. High Density applies to Newtown, Kilburn, Linden and Tawa. Notes that reference is made to assessment against Design Guides. Design Guides are too broad to be used as an assessment matter.	Retain the introduction of the Local Centre Zone chapter and seeks amendment.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Kāinga Ora Homes and Communities	391.560	Amend	Generally supports the introduction and application of a Local Centre Zone in the Draft District Plan. Introduce a Town Centre category in the Centres hierarchy and include Miramar, Tawa, and Newtown in a new Town Centre chapter. [See Appendix 2 of submission for further detail]. 2. Amend the introduction text as follows: The purpose of the Local Centre Zone is to provide for a range commercial, community, recreational and residential activities. These centres service the needs of the surrounding residential catchment and neighbouring suburbs. Local centres support the role and function of other Centre Zones in the hierarchy of centres. <p>The Local Centre Zone is distributed across the city and will play a crucial role in accommodating and servicing the needs of the existing and forecast population growth. The <u>Medium Density and High Density Residential Zone</u> surrounds most local centres. These zones enable intensification due to the capacity of the area to absorb more housing with enablers of growth such as walkability, access to public transport, community facilities and services.</p> <p>High quality building design is a focus for the Local Centres Zone. The transition to more intensive use in some local centres will result in changes to existing amenity values in the centres and their surrounds. Consequently, redevelopment will be supported by a range of measures to promote good design and environmental outcomes, and address amenity issues <u>that are not anticipated in the Zone</u>. Accordingly, most building activities will require a resource consent and an assessment against the Centres and Mixed Use Design Guide <u>key design criteria</u>. To enable intensification around existing neighbourhood centres, some of these will have substantial building heights.</p>

Sub-part / Chapter / Provision	Submitter Name	Sub No / Point No	Position	Summary of Submission	Decisions Requested
					There is an identified need for residential intensification within and around local centres. These centres are subject to the intensification policies 3 (c) and (d) of the National Policy Statement on Urban Development 2020 (NPS-UD). Accordingly, residential activity is permitted above ground floor or where not visible at ground level within these centres. To support a mix of activities within the zone, activities that have off-site effects, such as industrial activities and different retail formats, will need to be managed. There is however a desire for larger scale retail to locate in centres, where these are of an appropriate form and scale, rather than at out-of-centre locations, to support the vitality and viability of centres.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Willis Bond and Company Limited	416.94	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Foodstuffs North Island	476.22	Support in part	Generally supports the objectives and policies for the Local Centre Zone, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain the Local Centre Zone objectives and policies, with amendments. [Inferred decision requested].
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Foodstuffs North Island	476.84	Support	Supports the Local Centre Zoning of New World Newtown (195 Riddiford Street).	Retain Local Centre Zoning of New World Newtown (195 Riddiford Street) as notified.

Commercial and mixed use Zones / Local Centre Zone / General LCZ	Foodstuffs North Island	476.90	Support	Supports the Local Centre Zoning of New World Churton Park (103 Westchester Drive).	Retain Local Centre Zoning of New World Churton Park (103 Westchester Drive) as notified.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Foodstuffs North Island	476.91	Support	Supports the Local Centre Zoning of New World Tawa (37 Oxford Street).	Retain Local Centre Zoning of New World Tawa (37 Oxford Street) as notified.
Commercial and mixed use Zones / Local Centre Zone / General LCZ	Ben Barrett	479.22	Amend	Considers that Constable Street is not a major transport corridor. [Refer to original submission for full reason]	Seeks that appropriate building planning needs to be had along Constable Street, varying in height, with building heights reducing as the elevation of the road rises.
Commercial and mixed use Zones / Local Centre Zone / New LCZ	Simon Ross	37.6	Amend	Considers that Mixed Used Zones (i.e. Local Centre Zones) in Karori are too small. The biggest missed opportunity is to make mixed use along the full length between Marsden Village and the west end of Karori Village.	Seeks that the Local Centre Zone extends along the length of Karori Road and/or between Morley Street and Tringham Street.

Commercial and mixed use Zones / Local Centre Zone / New LCZ	Retirement Villages Association of New Zealand Incorporated	350.233	Support	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Local Centre Zone (LCZ-R10). Considers that the Local Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under LCZ-R18). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add a new 'Retirement villages' in the Local Centres Zone chapter rule as follows: <u>LCZ-RX Retirement villages</u> 1. Commercial and mixed use Zones / Local Centre Zone / New LCZ	Retirement Villages Association of New Zealand Incorporated	350.234	Amend	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Local Centre Zone (LCZ-R10). Commercial and mixed use Zones / Local Centre Zone / New LCZ	Kāinga Ora Homes and Communities	391.561	Amend	Seeks a new rule to allow for the Conversion of Buildings, or parts of buildings for Residential activities as a permitted activity. Residential activities are considered an appropriate activity within the LCZ, and the effects can be controlled through the standards.	Seeks to Add the following new rule in the Local Centres Zone chapter: <u>1. Activity status: Permitted</u> <u>where:</u> <u>a. The conversion of Buildings, or parts of buildings for Residential activities:</u> <u>i. Do not alter the external appearance of the building or structure; and</u> <u>ii. Commercial and mixed use Zones / Local Centre Zone / New LCZ	KiwiRail Holdings Limited	408.126	Amend	Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor. Parts of the KiwiRail network adjoin commercial and mixed use zones that do not currently include provision for boundary setbacks for buildings and structures. KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA. Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.	Add new standard as follows: <u>LCZ-SX:</u> <u>Boundary setbacks</u> <u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u> AND seeks that as applicable, the following matter of discretion be inserted: <u>Matters of discretion:</u> <u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u>

Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Brian Sheppard	169.3	Not specified	Considers that the provision of appropriate public facilities and infrastructure has not kept pace with the extensive housing development of Churton Park. This is most noticeable in the small community centre which, even when built 10 years ago, was not large enough to accommodate the community needs of our rapidly expanding population.	Seeks that adequate provision is made for the good use of public space in Churton Park. [Inferred decision requested].
Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	McDonald's	274.21	Support in part	Supports the objectives and policies for the Neighbourhood, Local and Metropolitan Centre zones, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities. Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Ara Poutama Aotearoa the Department of Corrections	240.32	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City. Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Woolworths New Zealand	359.61	Amend	Considers that LCZ-P4 is unclear as drafted and should be amended to clarify why matters 1-4 have been included within the policy. It is considered that these clauses do not need to be incorporated into Policy LCZ-P4. Potentially incompatible activities (being activities not contemplated by the zone, or ones that infringe the zone standards) should be able to be accommodated in the zone if there is a functional and operational need and effects on the Centre are managed.	Amend LCZ-P4 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the Local Centre Zone, where they demonstrate an operational or functional need to locate within the zone; or will not have an unacceptable adverse effect on the vibrancy and amenity of the centre; : 1. Carparking visible at street edge along an active frontage or non-residential activity frontage; 2. Demolition of buildings that results in the creation of vacant land; 3. Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Z Energy Limited	361.29	Support in part	LCZ-P4 is supported for its intent in relation to new activities. Policy LCZ-P4 identifies potentially incompatible activities with the purpose of the LCZ, including yard-based retail, ground level carparking and residential activities, and vacant sites and seeks to only allow these activities where they will not have an adverse effect on its vitality, vibrancy and amenity.	Retain LCZ-P4 (Potentially incompatible activities) with amendment.
Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Z Energy Limited	361.30	Amend	Considers that LCZ-P4 is too specific and should be amended. LCZ-P4 is too specific and it will impact on the continued operation, maintenance and upgrade of a range of existing activities. Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	WCC Environmental Reference Group	377.456	Amend	Considers that LCZ-P4 should be amended as it seems unduly restrictive to limit all yard-based activities in Local Centre Zones - garden centres and plant sales for example would seem business that would fit perfectly within local centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods. Commercial and mixed use Zones / Local Centre Zone / LCZ-P5	WCC Environmental Reference Group	377.457	Amend	Considers that LCZ-P5 should be amended as 'Avoid' is too strong and prohibitive a policy test to apply, post the NZ King Salmon case. There are easily envisaged circumstances where some activities that would fit within the heavy industrial category would fit well with a local centre. For example small scale waste collection or recycling. As cities move towards a 'circular economy' model there will be a need for community based waste and recycling and this may prohibit such activities and raise additional barriers to sustainable waste management.	Amend LCZ-P5 (Heavy industrial activities) as follows: <u>Only allow heavy industrial activities where they will not have an adverse effect on the vibrancy and amenity of the centre.</u> Avoid heavy industrial activities from locating in the Local Centre Zone.

Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Retirement Villages Association of New Zealand Incorporated	350.240	Amend	Agrees that shading, privacy, bulk and dominance effects on adjacent sites require management. However, the level of management needs to be informed by the development expectations for the zone.	Seeks to Add new "role of density standards" policy in the Local Centre Zone chapter as follows: <u>MRZ-PX Role of density standards</u> <u>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</u>
Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Z Energy Limited	361.36	Support	LCZ-P9 is supported as it seeks to manage adverse effects relating to shading, privacy, bulk and dominance effects as well as effects on the transport network. Amend LCZ-P9 (Managing adverse effects) as follows: Recognise the evolving, higher density development context enabled in the Local Centres Zone, while managing any associated adverse effects <u>beyond those anticipated within the zone</u> , including: 1. Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Property Council New Zealand	338.15	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur.	Seeks that incentives be provided to encourage but not require large developments to deliver City Outcomes Contributions.

Commercial and mixed use Zones / Local Centre Zone / LCZ-R12	WCC Environmental Reference Group	377.474	Amend	Considers that LCZ-R12 is far too restrictive and should be amended. Community waste collection and recycling could be key aspects of a more sustainable 'circular' economy. Non-complying status with compulsory public notification is a major barrier to any activity. This could be a major roadblock for community waste management, small scale composting or niche recycling activities. Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Woolworths New Zealand	359.63	Amend	Considers that LCZ-R13 should be amended so that the activity status of this standard infringement is changed to restricted discretionary. It is considered that this status, plus the suggested matters of discretion, will ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. Supermarkets often require car parking to be visible, both from commercial viability perspective but also given the requirements to separate loading and servicing activities from public interfaces. This site layout requires that loading is located to the rear of a store, with the building in front and the entrance accessible and legible from the car park and street frontage. The application of blanket urban design ideals in these standards is challenged such that the proposed amendment seeks to explicitly exclude supermarkets from complying with this standard.	Amend LCZ-R13.2 (Carparking activities) as follows: 2. Activity status: Discretionary Restricted Discretionary Where: a. Compliance with the requirements of LCZ-R13.1.a is not achieved. <u>Matters of discretion are:</u> <u>1. The matters in LCZ-P2, LCZ-P3, LCZ-P4, LCZ-P7, LCZ-P9 and LCZ-P10;</u> <u>2. Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.150	Amend	Considers that LCZ-R14 should be amended as the notification requirement is not supported as it may have a range of unintended outcomes. For instance, without clarification, it may require public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may therefore also discourage existing activities from undertaking important maintenance and upgrades, for instance, to meet requirements of HSNO / HSWA legislation, better accord with good practise, introduce new technologies, or necessary changes to meet demand. Ongoing operation, maintenance, and upgrades of existing service stations / yard-based retail activities should not be subject to this notification requirement, which is not appropriate for existing lawful activities. It is considered that an additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have, nor should they expect, the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example. A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to the adjoining zone.	Amend LCZ-R14 (Yard-based retailing activities) as follows: Notification Status: An application for resource consent made in respect of rule LCZ-R14 must be publicly notified <u>except</u> : <u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u>

Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	WCC Environmental Reference Group	377.475	Amend	Considers that LCZ-R14 should be amended as it seems unduly restrictive to limit all yard-based activities in neighbourhood centre zones. For example, garden centres and plant sales would seem a business that would fit perfectly within neighbour centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods. It may even be appropriate to have some permitted activity rules for some yard based activities - for example a small garden centre. Drafting for this policy was not specifically provided but it is considered this should be reconsidered as the 50% total area yard restriction appears to catch a wide range of activities, many of which may be appropriate and should be permitted in neighbourhood centres.	Amend LCZ-R14 (Yard-based retailing activities) as follows: 1. Activity status: <u>Restricted Discretionary</u> <u>Matters of discretion are:</u> 1. <u>The matters in LCZ-P1, LCZ-P2, LCZ-P3 and LCZ-P4;</u> Notification status: An application for resource consent made in respect of rule LCZ-R15 must be publicly notified.

Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Catharine Underwood	481.28	Amend	The 22m limit in the Brooklyn local centre is opposed. 22m on both sides of the street will make it a very unattractive place to be, destroying the streetscape and sunlight and make it very shady and windy and takes not notice of th topography.	Amend LCZ-S1 (Maximum height) to remove 5 and 2 Todman street, 28 Cleveland Street Brooklyn from Height Area 3 (22m).
Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Catharine Underwood	481.29	Amend	Considers that the height limits in the central Brooklyn Zone be limited to 14m on the south side and 11m on the north side. Any higher than this will impact on sunlight onto the street, create a canyon effect for what is a narrow street and cause much shading on the street.	Seeks that the height specified for Brooklyn in LCZ-S1 (Maximum height) is reduced to 14m on the south side and 11m on the north side.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Catharine Underwood	481.30	Amend	Considers that the north side of Upland Road in the Kelburn Village zone should be limited to 11m in height and the south side be limited to 14m. 22m height is way out of proportion to the available area, will destroy to street scape, will reduce sunlight on the south side of the street. And not provide a 'transition' between the centre and the houses.	Seeks that the height specified for LCZ-S1 (Maximum height) is reduced to 11m on the North side of Upland Road and 14 m on the South side of Upland Road in Kelburn Village.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Catharine Underwood	481.31	Amend	Considers that he proposed height limit of 18m for the local centre in Karori should be increased to match those of the other centres at 22m. Karori has more shops, more room, flatter land and a catchment that is almost fully catered for without leaving the suburb. Brooklyn Village, Aro Village and Kelburn Village seem to being pushed for development when to do the buildings at the proposed height will impact the liveability, sunshine, shading, biodiversity. If Karori cannot be increased, Kelburn and Aro St should be reduced.	Seeks that the height specified for LCZ-S1 (Maximum height) is increased to 22m in Karori.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Ciampa Family Trust	165.2	Amend	Considers that it is unclear in LCZ-S2 whether the minimum building height applies to all buildings on a site zoned Local Centre Zone or whether it only applies to the building that directly adjoins/addresses the street. [Refer to original submission for full reasons].	Clarify whether the LCZ-S2 (Minimum building height) applies to all buildings on a site zoned Local Centre Zone or whether it only applies to the building that directly adjoins/addresses the street.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	McDonald's	274.30	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion. Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Restaurant Brands Limited	349.101	Support	Oppose There are many buildings with a height less than the required minimum that will contribute positively to a well-functioning urban environment. The proposed standard will result in too many buildings requiring resource consent and is not an efficient or effective method to implement the policies of the Proposed District Plan.	Delete LCZ-S2 (Maximum building height) in its entirety.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Woolworths New Zealand	359.66	Oppose	LCZ-S2 is opposed in its entirety and should be deleted as it seeks to impose minimum building heights in the Neighbourhood and Local Centre zones of 7m. This requirement is overly prescriptive and unnecessary and should be deleted. The standard is overly onerous, when the PDP should be promoting development in the Centres. If this is to be retained in some degree ,it should be refined to be a building frontage height standard and limited to specified streets as identified on the planning maps to achieve centre vibrancy and amenity.	Delete LCZ-S2 (Minimum building height) in its entirety.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Kāinga Ora Homes and Communities	391.599	Support	Generally supports LCZ-S2.	Retain LCZ-S2 (Minimum building height) as notified.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Foodstuffs North Island	476.29	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete LCZ-S2 (Minimum building height) in its entirety.

Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Ciampa Family Trust	165.3	Amend	Considers that it would not be necessary in LCZ-S3 to require a 4m minimum ground floor height for buildings behind the street-facing street. Currently it is unclear in LCZ-S3 whether the 4m minimum ground floor height applies to all buildings on a site zoned Local Centre Zone or just the building that directly adjoins/addresses the street.	Seeks that LCZ-S3 (Minimum ground floor height) should not apply to buildings behind the street-facing building.
Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	McDonald's	274.31	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion. Active frontage controls on streets and buildings where these matters do not apply should be deleted.</p> <p>These amendments recognise that active frontage controls are useful to achieve well-functioning urban environments where they are specifically applied on key roads where character and amenity values anticipated by underlying zoning are present.</p>	Amend LCZ-S6 (Active frontage and non-residential activity frontage controls) to only apply for buildings that are located along principal roads/arterials and along any street edge.

Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Woolworths New Zealand	359.69	Amend	Considers that LCZ-S11 should be amended to introduce operational and functional requirements to infringements to maximum building depth since continuous external wall depth greater than 25m may be difficult to avoid in some larger scale proposals. Development of that scale may warrant consent and assessment, so long as that assessment is commensurate to the scale of the proposal, its context and those operational and functional requirements.	Amend LCZ-S11 (Maximum building depth) as follows: Assessment criteria where the standard is infringed: 1. The extent to which the design mitigates the effect of a long featureless building elevation; and 2. Dominance, privacy and shading effects on adjoining sites. <u>3. The extent to which any non-compliance is necessary to provide for the functional needs or operational needs of a proposed activity</u>

Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Foodstuffs North Island	476.93	Oppose	Opposes the Centre standards which sets a maximum 25m continuous depth of any external side wall. The word “continuous” is defined as forming an unbroken whole, without being interrupted. It is unclear whether the standard would still apply if the side wall was modulated. It would appear that the intent of these standards relates to privacy and dominance effects on neighbours and preventing a long featureless building façade. Privacy and dominance effects are more appropriately dealt with via the height, height in relation to boundary and outlook space standards. Furthermore, any new building in a Centre zone that is visible from the public realm requires consent and consideration of objectives and policies that also address amenity and design. Considers that the standards on maximum building depth are unnecessary and will act as a constraint on appropriate development and design.	Delete LCZ-S11 (Maximum building depth) in its entirety.
