Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Waka Kotahi	370.400	Amend	Considers the term “roading network” is used in several places, and the term is not defined. Particularly supports the provision for public transport, consideration of function of the transport network, the discouragement of carparking visible at street edge along an active frontage and the quality design outcomes.	Amend the reference to “transport network”, to ensure that it captures all transport modes.
Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	WCC Environmental Reference Group	377.424	Support in part	Generally supportive with some amendments specified below.	Not specified.
Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Kāinga Ora Homes and Communities	391.507	Support in part	Generally supports the introduction and application of a Neighbourhood Centre Zone in the Draft District Plan. However, considers that amendments required to remove references to Design Guides. Considers that Design Guides are too broad to be used as an assessment matter. Considers that a limited range of design criteria should be utilised instead and the focus for assessment should be effects beyond those anticipated by the zone.	Retain the introduction of the Neighbourhood Centre Zone chapter and seeks amendment.
Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Kāinga Ora Homes and Communities	391.508	Amend	Generally supports the introduction and application of a Neighbourhood Centre Zone in the Draft District Plan. However, considers that amendments required to remove references to Design Guides. Considers that Design Guides are too broad to be used as an assessment matter. Considers that a limited range of design criteria should be utilised instead and the focus for assessment should be effects beyond those anticipated by the zone.	<p>Amend the third paragraph of the introduction of the Neighbourhood Centre Zone chapter as follows:</p> <p>High quality building design is a focus for the Neighbourhood Centres Zone. The transition to more intensive use in some neighbourhood centres will result in changes to existing amenity values in the centres and their surrounds. Consequently, redevelopment will be supported by a range of measures to promote good design and environmental outcomes, and address amenity issues that are not anticipated in the zone. Accordingly, most building activities will require a resource consent and an assessment against the Centres and Mixed Use Design Guide key design criteria. To enable intensification around existing neighbourhood centres, some of these will have increased building heights.</p>
Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Willis Bond and Company Limited	416.93	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.

Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Retirement Villages Association of New Zealand Incorporated	350.208	Support	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Neighbourhood Centre Zone (NCZ-R10). Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Ara Poutama Aotearoa the Department of Corrections	240.28	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	Woolworths New Zealand	359.50	Amend	Considers that NCZ-P4 is unclear as drafted and should be amended to clarify why matters 1-4 have been included within the policy. It is considered that these clauses do not need to be incorporated into Policy NCZ-P4. Potentially incompatible activities (being activities not contemplated by the zone, or ones that infringe the zone standards) should be able to be accommodated in the zone if there is a functional and operational need and effects on the Centre are managed.	Amend NCZ-P4 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the Neighbourhood Centre Zone, where they demonstrate an operational or functional need to locate within the zone; or will not have an unacceptable adverse effect on the vibrancy and amenity of the centre: . 1. Carparking visible at street edge along an active frontage or non-residential activity frontage; 2. Demolition of buildings that results in the creation of vacant land; 3. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 4. Yard-based retail activities.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	WCC Environmental Reference Group	377.429	Amend	Considers that NCZ-P4 should be amended, as it seems unduly restrictive to limit all yard-based activities in neighbourhood centre zones - garden centres and plant sales for example would seem business that would fit perfectly within neighbour centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods where people can access a full range of goods and services. Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P5	WCC Environmental Reference Group	377.430	Amend	Considers that NCZ-P5 should be amended as 'Avoid' is too strong and prohibitive a policy test to apply, post the NZ King Salmon case. There are easily envisaged circumstances where some activities that would fit within the heavy industrial category would fit well with a neighbourhood centre. For example small scale waste collection or recycling. As cities move towards a 'circular economy' model there will be a need for community based waste and recycling and this may prohibit such activities and raise additional barriers to sustainable waste management.	Amend NCZ-P5 (Heavy industrial activities) as follows: <u>Only allow heavy industrial activities where they will not have an adverse effect on the vibrancy and amenity of the centre.</u> Avoid heavy industrial activities from locating in the Neighbourhood Centre Zone.

Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P6	Kāinga Ora Homes and Communities	391.521	Support in part	Generally supports NCZ-P6 but considers that an amendment is required to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Neighbourhood Centre. And; (b) Clarify that intent of the Neighbourhood Centre zone is to enable intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Neighbourhood Centre, particularly taking account of the location of some Neighbourhood Centres adjoining High Density Residential Zones. Furthermore, high density residential development can provide for a range of housing choices in itself. This position is consistent with NCZ-P1 and NCZ-P7 and the intent of the NCZ. Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Property Council New Zealand	338.14	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur. Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Woolworths New Zealand	359.51	Amend	Considers that NCZ-P10 is unclear and should be amended. Notes that the policy contains an incorrect reference to the Centres and Mixed Use Design Guide document (should be G97 as opposed to G107). A review of the guideline indicates that G97 City Outcomes Contribution is only triggered for City Centre zone developments (under or over height development comprising 50 or more units or any comprehensive development) and for over height development comprising 25 or more units or any comprehensive development in the MCZ, NCZ, LCZ and HRZ. Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R11	Kāinga Ora Homes and Communities	391.533	Amend	Considers that the Integrated Retail Activity gross floor areas of 20,000m ² do not reflect the scale of the Centres hierarchy anticipated in the NPSUD and the National Planning Standards. In some cases, the size of the Zones would not be large enough to accommodate 20,000m ² GFA.	Seeks to reduce the Integrated Retail Activity Gross Floor Area in NCZ-R11 (Integrated retail activity) to better reflect the lower order of Neighbourhood Centres in the Centres hierarchy.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R11	Kāinga Ora Homes and Communities	391.534	Oppose	Opposes NCZ-R11 as the provision of integrated retail up to 20,000m ² is inconsistent with the centre hierarchy across the Plan and the zones are too small to accommodate an integrated retail activity of 20,000m ² .	Delete NCZ-R13 (Carparking activities) in its entirety as notified.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R12	WCC Environmental Reference Group	377.446	Amend	Considers that NCZ-R12 is far too restrictive and should be amended. Community waste collection and recycling could be key aspects of a more sustainable 'circular' economy. Non-complying status with compulsory public notification is a major barrier to any activity. This could be a major roadblock for community waste management, small scale composting or niche recycling activities. For example it is not clear a small scale bottle recycling and cleaning business would not be caught by this rule.	Amend NCZ-R12.2 (Industrial activities) as follows: 2. Activity Status: Non-complying <u>Discretionary</u> Where: a. Compliance with the requirements of NCZ-R12.1 cannot be achieved. Notification status: An application for resource consent made in respect of rule NCZ-R12.2.a must be publicly notified.

Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Woolworths New Zealand	359.52	Amend	Considers that NCZ-R13 should be amended so that the activity status of this standard infringement is changed to restricted discretionary. It is considered that this status, plus the suggested matters of discretion, will ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. Supermarkets often require car parking to be visible, both from commercial viability perspective but also given the requirements to separate loading and servicing activities from public interfaces. This site layout requires that loading is located to the rear of a store, with the building in front and the entrance accessible and legible from the car park and street frontage. The application of blanket urban design ideals in these standards is challenged such that the proposed amendment seeks to explicitly exclude supermarkets from complying with this standard.	Amend NCZ-R13 (Carparking activities) as follows: ... 2. Activity Status: <u>Restricted Discretionary</u> Where: a. Compliance with the requirements of NCZ-R13.1.a is not achieved. <u>Matters of discretion are:</u> <u>1. The matters in NCZ-P2, NCZ-P3, NCZ-P4, NCZ-P7, NCZ-P9 and NCZ-P10;</u> <u>2. Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R14	BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.148	Amend	<p>Considers that NCZ-R14 should be amended as the notification requirement is not supported as it may have a range of unintended outcomes. For instance, without clarification, it may require public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may therefore also discourage existing activities from undertaking important maintenance and upgrades, for instance, to meet requirements of HSNO / HSWA legislation, better accord with good practise, introduce new technologies, or necessary changes to meet demand.</p> <p>Ongoing operation, maintenance, and upgrades of existing service stations / yard-based retail activities should not be subject to this notification requirement, which is not appropriate for existing lawful activities.</p> <p>It is considered that an additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have, nor should they expect, the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example. A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to the adjoining zone.</p>	<p>Amend NCZ-R14 (Yard-based retailing activities) as follows:</p> <p>Notification Status: An application for resource consent made in respect of rule NCZ-R14 must be publicly notified <u>except</u>:</p> <p><u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u></p>
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R14	WCC Environmental Reference Group	377.447	Amend	<p>Considers that NCZ-R14 should be amended, as it seems unduly restrictive to limit all yard-based activities in neighbourhood centre zones - garden centres and plant sales for example would seem business that would fit perfectly within neighbour centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods. It may even be appropriate to have some permitted activity rules for some yard based activities - for example a small garden centre. Drafting for this Rule is not specifically provided but it is considered this should be reconsidered as the 50% total area yard restriction appears to catch a wide range of activities, many of which may be appropriate and should be permitted in neighbourhood centres.</p>	<p>Amend NCZ-R14 (Yard-based retailing activities) as follows:</p> <p>1. Activity status: <u>Restricted</u> Discretionary</p> <p><u>Matters of discretion are:</u> <u>The matters in NCZ-P1, NCZ-P2, NCZ-P3, and NCZ-P4;</u></p> <p>Notification status: An application for resource consent made in respect of rule LCZ-R14 must be publicly notified.</p>

Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R19	Investore Property Limited	405.65	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend NCZ-R19.1 (Conversion of buildings or parts of buildings for residential activities) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R20	Fire and Emergency New Zealand	273.257	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports NCZ-R20 (Outdoor storage areas), with amendment.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R20	Fire and Emergency New Zealand	273.258	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend NCZ-R20 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. <u>b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</u>
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	David Stephen	82.6	Amend	Considers that the 22m maximum height limit in the Centres zones should be reduced.	Seeks that the 22m minimum height for Height Control Area 2 at NCZ-S1 (Minimum building height) is reduced.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	David Stevens	151.13	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend NCZ-S1 (Maximum Height) so that the Ngaio Centre has a height limit of 11m. [Inferred decision requested].
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	David Stevens	151.14	Amend	[No specific reason given beyond decision requested - refer to original submission]. Access for deliveries to local businesses is already constrained in Khandallah Village limiting any scope for expansion.	Amend NCZ-S1 (Maximum Height) so that the Khandallah Centre (rezoned as a NCZ) has a height limit of 11m. [Inferred decision requested].
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Wellington City Council	266.154	Amend	Considers there needs to be an increase in the height of the neighbourhood centre on the corner of Mersey Street and The Parade, Island Bay shops from 12m to 14m. This is because the PDP building neighbourhood centre heights are lower than the surrounding residential areas (14m). This is inconsistent with the approach taken to building heights in other centres and adjoining residential areas.	Amend NCZ-S1 (Maximum Height) as per table included in full submission. [Refer to original submission for table version of amendment sought]
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Fire and Emergency New Zealand	273.259	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports NCZ-S1 (Maximum height), with amendment.

Delete NCZ-S2 (Maximum building height) in its entirety.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Woolworths New Zealand	359.55	Oppose	NCZ-S2 is opposed in its entirety and should be deleted, as it seeks to impose minimum building heights in the Neighbourhood and Local Centre zones of 7m. This requirement is overly prescriptive and unnecessary and should be deleted. The standard is overly onerous, when the PDP should be promoting development in the Centres. If this is to be retained in some degree, it should be refined to be a building frontage height standard and limited to specified streets as identified on the planning maps to achieve centre vibrancy and amenity. The zones are small and generally have limited depth which will place natural constraints on development and separations. Furthermore, considers that these standards are not triggered by any rule and so should be deleted.	Delete NCZ-S11 (Maximum building depth) in its entirety as notified.
Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Foodstuffs North Island	476.83	Oppose	Opposes the Centre standards which sets a maximum 25m continuous depth of any external side wall. The word "continuous" is defined as forming an unbroken whole, without being interrupted. It is unclear whether the standard would still apply if the side wall was modulated. It would appear that the intent of these standards relates to privacy and dominance effects on neighbours and preventing a long featureless building façade. Privacy and dominance effects are more appropriately dealt with via the height, height in relation to boundary and outlook space standards. Furthermore, any new building in a Centre zone that is visible from the public realm requires consent and consideration of objectives and policies that also address amenity and design. Considers that the standards on maximum building depth are unnecessary and will act as a constraint on appropriate development and design.	Delete NCZ-S11 (Maximum building depth) in its entirety.
