

Minute 2

Applicant:	The Wellington Company Limited
Location:	232, 264, 270 and 276 Shelly Bay Rd
Application Number:	Service Request 368659
Subject:	Update on the Process

Further to Minute 1, the Reporting Officer has requested that the timeframe for preparation of the section 42A Report be extended by 1 week to enable him to fully review the specialist reports, some of which are yet to be delivered.

The Commissioners have approved this request, and the parties are therefore advised of the updated timetable as follows:

- (a) The section 42A report, and all specialist reports, are to be received by **14 June 2019**.
- (b) The Commissioners will review those reports to ensure they are fit for purpose, and will issue further instructions by **28 June 2019** requesting any further information or assessments that we may require.

It seems likely a hearing will be required, and that will most likely be held in late July or early August 2019.

Under Section 76(2)(f) of the HASHA and Section 37 of the RMA, the statutory timeframe is extended as outlined above.

Gary Rae
Chair of Hearings Panel, on behalf of
Commissioners Helen Atkins and Ray O'Callaghan
